

To whom it may concern. It has been WONDERFUL not to receive all kinds of UNwanted solicitations through the phone. I realize that there are people who make their living in this manner, but I believe that I as an individual have the right to not be bothered by them in their pursuit of their profession. I used to get calls up to 9:30 at night from people located in who knows where. It has been greatly reduced to maybe 1-2 per month, if that. If I want services I know how to call someone, I don't need, nor want, to be harrassed in my own home. Truthfully the provisions by the state should NOT be overridded by the Federal government.
